Questions:

1. Priorities: *What are your top three state legislative priorities? Why did you select them?*

A: Michigan's no fault insurance- People are fed up with the extremely high cost of car insurance as compared to other states Common core education- It dumbs down the intelligent child. Taxation of pensions- Taxing an already taxed income.

2. Education: *The test scores of Michigan students, once among the highest in the country, have dropped, making Michigan one of the lowest achieving states. What measures would you support to improve educational results?*

A: 1) Hold parents accountable for their children 2) Hold teachers accountable for their students 3) Stop the school administration red tape 4) Support classes for high school students who want to go into the trades and not to college.

3. Economy: *What should the state government do to strengthen the state's economy, reduce unemployment, and address the widening income gap?*

A: Reduce taxes. Be smarter and conservative when spending tax dollars. Start a "Made in USA" promotion to encourage factories to stay in and invest in Michigan, not invest tax monies that were used to save companies and spend it in China.
